

Testing Retrospective

What was achieved

The final sprint was focused on achieving the 80% coverage required for tests and finishing user acceptance tests as well as system tests.

```
===== Coverage summary =====
Statements : 85.08% ( 445/523 )
Branches   : 81.81% ( 144/176 )
Functions  : 76.52% ( 88/115 )
Lines      : 85.06% ( 433/509 )
=====

Test Suites: 24 passed, 24 total
Tests:       76 passed, 76 total
Snapshots:   0 total
Time:        29.485 s
Ran all test suites.
```

Testing retrospective

A coverage of 80% was achieved for unit tests. However, as most of the team members were learning how to do testing during the semester, a different approach would be implemented for future projects. For example, tests would be shipped with features and not after. This way, coverage for our code could be consistently achieved throughout development.

User Acceptance Tests

All user acceptance tests from previous sprints were completed for all features implemented and are now closed.
